

Dear Customers,

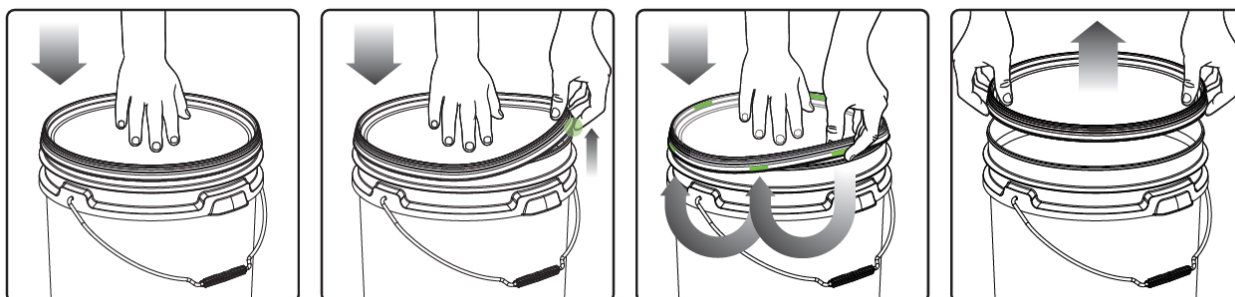

RE: Mayonnaise Buckets: Helpful Opening Instructions

Our recommendations for removing the lid on our bucket Mayonnaise are as follows:

1. Remove the Tamper Evidence Band
2. Lift the lid on one side of the bucket and move around the pail, gradually lifting the lid around the bucket's circumference
3. The lid will then be able to be removed directly

NOTE: Please note the lid is not designed to lift on one side and be torn off in one motion.

Please see below for visual instructions.
